

REMARKS

Reconsideration of the application is respectfully requested.

Claim Objection

In the Office Action, claim 9 was objected to because the word "a" was omitted. Claim 9 is amended as suggested in the Office Action. Accordingly, the objection of claim 9 is believed to be overcome.

Specification

The specification is being amended to correct typographical errors as suggested in the Office Action.

Drawings

Formal drawings are being submitted separately via first class mail attention to Group Art Unit 3624, Examiner Ella Colbert today, December 8, 2003.

Claim Rejections - 35 U.S.C. §112, first paragraph and second paragraph, and 35 U.S.C. §103(a)

During the telephone interview on December 1, 2003, Applicants' representative pointed out the pages in the specification where the description of "the keyword repository being built dynamically" is found. Further, Applicants' representative explained that the cited references, alone or in combination, do not establish the prima facie case of obviousness. The Examiner, in turn, has agreed to reconsider the application in view of the arguments presented during that interview. Accordingly, withdrawal of the objections and

rejections and a favorable office action is respectfully requested.

This communication is believed to be fully responsive to the Office Action and every effort has been made to place the application in condition for allowance. If a telephone interview would be of assistance in advancing prosecution of the subject application, the Examiner is requested to telephone the number provided below.
